LARGER ARMY AND NAVY URGED BY PRESIDENT

Washington, Dec. 6.—A legislative program touching almost every aspect of national life was presented by President Coolidge today in his

POINTS OF COOLIDGE'S MESSAGE TO CONGRESS

questionnaire, which follows:

TAX REDUCTION: "It is possible to make a large reduction in the taxes of the people. The country's war aims make it necessary to make the way of out all others."

SOLDIERS' BONUS: "I do not favor the granting of a bonus." This declaration by the President followed news of a bill for opening government hospitals for the care of all war veterans in need of treatment.

THE BUDGET: "Without a budget system there can be no fixed budget and no constructive economic recovery."

RAILROADS: "Should permit-able consideration per ton-mile be limited to a minimum. The authority of the government will

april ought not to settle in education."

EDUCATION: "I do not favor the making of appropriations from the national treasury to be expended directly on local education. But I do consider it a moral requirement of national action, which, accompanied by adequate legislation, is the duty worthy of a separate department and place in the Cabinet."

MUSCLE SHOAL: "Subject to the right of the states to regulate navigation, I recommend that this property, with a location for auxiliary steam plant and rights of way be sold."

FOREIGN AFFAIRS: "I am not in favor of any special

Court; unqualifiedly approved Secretary Mellon's tax reduction plan, and announced his opposition to soldier bonus legislation."

He went on record as favoring stimulated consolidation of the railroads, reorganization of the railroad freight structure as applied to farm products; and government assistance in the disposition of exportable wheat. He declared against price-fixing for farm products; against repeal of the

AID FOR FARMERS: "No complaint has been received from farmers for government fixing of prices or resort to the public treasury for relief of rural distress in establishing agriculture. Simple and effective methods are being employed by the farmer himself as the only real reason for reduction of farm production."

ARMY AND NAVY: "Both should be strengthened rather than weakened. The army must have national defense as basis of its national defense is putting in jeopardy their national honor."

REGULATION:

TRANSPORTATION: "The world has had enough of the curbs of hatred and fear which have been put upon us . . . The time has come for freedom of movement of goods and power. . . Our authority among the nations must be represented by justice and equity."

THE TREATMENT OF THE WORLD COURT

"This is not a nation question. It is a world question. The world is artificial intelligence. As I wish to see a court established, and as the world is the only one." — Continued on Page 5, Column 2.

STATE SENATOR AND ALDERMAN PAY "DRUM" FINES

LEAGUE OF NATIONS: "The United States has no plans to limit its own freedom and independence of action by joining it," said Secretary of State Hughes.

WORLD COURT: "I... commend it to the favorable consideration of the Senate," said Secretary of State Hughes, after the proposed reservations clearly indicating our refusal to adhere to the League Nations.

FOREIGN DEBTS: "It do not favor cancellation of this foreign debt," said Secretary of State Hughes.

Hartford, Ct., Dec. 6.—State Senator Richard Govey, and Alderman Cornelius Delah, both of New Britain, were each fined \$50 today when they pleaded guilty in Superior Court of having been in a place where it had been reputed liquor was being sold. They paid. The convictions followed a raid at Southington Inn Oct. 9.

17,000 MINERS QUIT TOMORROW

Wilkesbarre, Pa., Dec. 6 (I.N.S.)—An anthracite strike which may sweep the entire region and render 50,000 men idle, seemed unavoidable here today as 17,000 employees of the Lehigh-Valley Coal Co. prepared to quit.

CHILD LABOR: "For purposes of national uniformity, the right to be employed by constitutional amendment and appropriate legislation for a limitation of child labor."

ALIENS: "We should find additional safety in a law requiring the registration of all aliens. Those who do not want to register should be deported."

Today Disarm Would-Be Wife Slayer in Shop

Chicago's Livestock Show The Rockefeller and Health England Decides Today A Real Railroad Man

Current Events

By Arthur Brisbane

WHOMEVER HAS NOT seen the International Live Stock Show, now open in Chicago, has missed something more interesting than the opening of Congress. Yesterday you might have seen the super champion "great polled short horn bull Royal Choice Sultan," winner of the first prize, and the prize winning steer weighing a ton and a quarter.

TWO BONS of Royal Choice Sultan, each a year old, lay in the straw near him. One sold for \$1,000, the other for \$300. The thousand dollar steer had been nursed by two cows, one besides his own mother, up to the day of the show. The other, smaller, was nursed by his mother only, with an supplementary nurse. What chance has a calf, or a human baby, with no nursing mother at all?

AMONG the sheep there were no caracals. Mr. O. T. Henkle, the able manager of the stock yard, should attend to that. Lambs that have caracal rams for fathers are born jet black and curly, providing excellent caracal fur, even when their mothers are snow white. Caracal raising should be easy, and profitable, in mountain regions. There are no "Mulefoot" hogs in the swine department.

"Pig men" say the mulefoot is a failure and it is all nonsense about that hog being immune to hog cholera. This will surprise and grieve Judge Gary of the Steel Corporation. He raises "Mulefoot" at his Long Island place, convinced that hog cholera cannot reach them, and advised this winter by all means to change from Jersey Durocs to Mulefoot.

You forget all about politics, freight rates, finance, when you see that wonderful collection of eleven thousand pure bred animals and the earnest men that breed them, concentrating on food production. They are the happy, really interested men of this world. They deal with realities that do not disappoint them.

JOHN D. ROCKEFELLER says health and disease must be handled as international affairs. Spanish influenza taught us, after this war, what other plagues have taught us, that other wars, that disease knows no country and despises distance, traveling, as Mr. Rockefeller says, along the trade routes. The Rockefeller Institute has set a good example to the governments of the world, spending millions to conquer disease, not only in this country but in foreign lands whence plagues start on their travels.

THE ROCKEFELLER INSTITUTE fights disease in China, and has undertaken the gigantic and noble task of eliminating yellow fever entirely by killing it off, once and for all, in places where it is endemic. For that service the Rockefeller will be remembered, when men shall have long forgotten the trifling fact that Mr. Rockefeller was the world's richest man.

TODAY England decides for and against protection and free trade, Lloyd George and Baldwin.

Lloyd George tells Englishmen that London grows more quickly than New York because England has free trade. That may be, although New York grows as fast as well, considering the size of the two cities.

And what is good for London, chief city of a country that cannot feed its population, is necessarily good for New York, chief city of a nation that could easily feed the entire population of the world.

Our problem is to keep our money here in the family, keep our people busy, prove our kind of government, and gradually improve that government.

It doesn't seem likely that Lloyd George or Baldwin will change their established policy of free trade. You will see the vote comes in. Lloyd George predicts an election in his favor of a million, and he knows Britain.

SIR WILLIAM MACKENZIE, Canadian railroad builder, died at 76, beloved to the old

PHOTO-DIAGRAM AND PRINCIPALS
William A. Dunn and his wife, Lydia, who occupied a bullet hole at her after pursuing her to the Hyde Park Public Market at No. 10 Oak street.

school of real railroad bullies like Hill and Harriman. Modern railroad men, that build up combinations with the ticker and build up railroads with the automobile, concentrating on food production. They are the happy, really interested men of this world. They deal with realities that do not disappoint them.

THE verdict of South Dakota, giving the Republican choice to Coolidge, the Democratic to McAdoo, the Farmer-Non-Partisan to La Follette, leaving William Johnson and Ford, is interesting, but has little meaning. At this moment politicians have taught us, after other wars, that disease knows no country and despises distance, traveling, as Mr. Rockefeller says, along the trade routes.

THE Rockefeller Institute has set a good example to the governments of the world, spending millions to conquer disease, not only in this country but in foreign lands whence plagues start on their travels.

THE ROCKEFELLER INSTITUTE fights disease in China, and has undertaken the gigantic and noble task of eliminating yellow fever entirely by killing it off, once and for all, in places where it is endemic.

For that service the Rockefeller will be remembered, when men shall have long forgotten the trifling fact that Mr. Rockefeller was the world's richest man.

TODAY England decides for and against protection and free trade, Lloyd George and Baldwin.

Lloyd George tells Englishmen that London grows more quickly than New York because England has free trade. That may be, although New York grows as fast as well, considering the size of the two cities.

And what is good for London, chief city of a country that cannot feed its population, is necessarily good for New York, chief city of a nation that could easily feed the entire population of the world.

Our problem is to keep our money here in the family, keep our people busy, prove our kind of government, and gradually improve that government.

POST TO THE AMERICAN

BOSTON, THURSDAY, DECEMBER 6, 1923

GOES AT BROWN WANTS TO SMOKE

Hostler Is Held as Leader of Thieves Easy Money of Missing Girls Gone Wrong Earned Pitifully Hard

CO-EDS ASK 'EQUAL RIGHTS'

Also Want Permission to Puff Cigarettes on Campus of University

Providence, R. I., Dec. 6.—Fair Brown "co-eds" want to smoke.

The majority prefer cigarettes but there are some who would enjoy the comfort of a pipe.

They want the ban on smoking lifted and, what's more, they demand a smoking room in Pembroke Hall, the women's section of Brown University.

Petitions demanding the lifting of the smoking ban are being circulated on the campus. The petitions will be turned over to Miss Glenna Wedman Day, president of the Student Government Association, who, in turn, will submit them to Dean Margaret Shove Morris.

Girls Day, president of the Student Government Association, who, in turn, will submit them to Dean Margaret Shove Morris.

SHoppers SEE HUSBAND SHOOT AT WIFE

Mrs. Lydia Dunn, twenty-four years old, of No. 10 Oak street, Hyde Park, narrowly escaped being slain when her husband, William A. Dunn, twenty-eight years old, chased her with a loaded revolver into the Hyde Park Public Market, No. 1250 Hyde Park avenue, where in the presence of eight or ten customers, a bullet fired by him missed her head by inches and lodged in a showcase.

At the report of the shot Mrs. Dunn fainted.

Dunn was disarmed by David Shanahan, proprietor of the market and a male customer. Simultaneously, Sergeant Keyes and Patrolman Curry arrived on the scene, and arrested Dunn.

He is being held at Bialion 18 charged with assault with intent to kill.

Dunn is separated from his wife and lives at No. 147 Washington street. An attempted reconciliation with her was the cause of the shooting, according to the police.

The couple have a six-year-old son, William, Jr.

ELKS URGED TO FIGHT REDS

Louisville, Ky., Dec. 6.—Asserting there are 104 Bolshevik newspapers published in this country, and 5,000,000 copies, James G. McFarland, grand exalted ruler, appealed to Elks to combat Bolshevism in the United States in a speech here in connection with the listing of the corporation for a new Elks home.

He urged intelligent exercise of the ballot. He said each of the 104 Bolshevik papers attacked civilization, law and order.

MEXICO DEMANDS AMERICAN NUNCIO

Rome, Dec. 6 (U.S.S.)—The disagreement between Mexico and the United States over the former's expulsion of the former's Papal Nuncio by the Mexican Government is deadlocked in a letter to the Vatican today. Mexico is insisting that the next Papal Nuncio be an American.

Only a Few Runaways Make Good, Policewoman McAuliffe Finds; Most Resort to the "Easiest Way" and Meet Tragic Ends

This is the fourth of a series of articles written for the Boston American by the policewoman.

In this article Miss Irene McAuliffe tells what happens to the girls who run away from their homes in the country towns and come to Boston, leaving broken-hearted mothers behind.

By IRENE MAULIFFE
Boston Policewoman, Formerly of Washington, D. C., Police.

Where do the missing girls go?

This is the question that many, many mothers ask me. So many parents have the wrong idea about this point that I shall try to furnish a little light on the question in this article.

Let me make this point clear: Not all the girls who are listed as missing come to a bad end. There are a large number who really are better off, both socially and financially as a result of leaving their homes.

Do not think that I condone the actions of runaway girls. I do not. For while some of them improve their positions there is the other group who fall deep into the mire and find themselves on the pathway which has no return.

ONLY FEW MAKE GOOD.

But, facts are facts. And it must be admitted that some girls now holding responsible positions in Boston stores and offices would never have secured them if they had remained in the small towns and waited for someone to come along and marry them.

MISS DAY ACTS.

Then Miss Day, in the capacity of president of the Student Government Association, went to the convention at Oberlin, Ohio, of the Women's Inter-Collegiate Association and put the question to the convention. Miss Day discovered that eleven women's colleges, Pembroke was the only one that ruled against smoking in dormitories. Miss Day learned that Barnard College has a room where college girls can smoke at will. Upon receiving Miss Day's report, the Pembroke girls immediately got into circulation the smoking petition.

Dean Morris was questioned and said: "It was the time enough to talk about whether there shall be a smoking room for the girls when the student asked for it. If that time ever comes, it will be a great day for the Student Government Association is just that—a student body. If the girls wish to talk of a smoking room they may do so."

Miss Day said that the anti-smoking rule at Pembroke was made some years ago because of the "conservatism of the town."

"The majority of students here do not consider smoking for women necessarily wrong, but because Providence is such a conservative town, it was thought best that they should not do so here," said Miss Day. "Of course we have girls who have smoked and have been penalized by the dean. The girls are asked not to smoke outside, but we can do nothing to prevent them if they do so in public places or in their own homes."

Bishop James Atkins Dies

Little Rock, Ark., Dec. 6.—Bishop James Atkins of the Methodist Episcopal Church, South, is dead as the result of a heart attack. He was in Little Rock in founding the Southern Methodist University at Dallas. The present Sunday school system of the church is largely due to his organization.

Moulders' Pay Raised

Westfield, Dec. 6.—A 10 per cent. wage increase was announced today by the H. B. Smith Co., radiator manufacturers, covering 400 moulders. The new scale will be \$12.50 per day.

MISS MAULIFFE AND HER STORY IN SKETCHES

In a short time are going to tire of them and turn them adrift on the sea of loose living.

Some end in suicide. Some come to a sudden end at the hands of a jealous male "keeper," who, crazed by drink or jealousy, shoots them down like dogs and then turns his pistol against his own head.

That is what happens to the innocent little girl who runs away from the small towns and runs to the city, unless they are willing to slave and skimp on a meagre salary which will provide them nothing but a hall room and cotton stockings, or unless they are lucky and bright enough to fall into one of the good positions that some girls get.

Little girl from the small town. If you are thinking of running away, and coming to Boston in search of adventure, position and "life," think twice.

You may look at the wonderful clothes of one of these girls and say: "She does it easily. Why don't I?" Little girl, only God-and the girls—really know how hard they earn that "easy money."

Another installment of this interesting series will appear in tomorrow's Boston American.

BATES RAPS 'NEAR WAR' SOLDIERS

Sanford Bates, Commissioner of Correction, does not believe that every man who reached a training camp should be at the head of every civil service list for every day of his life. His sentiments were made known in a discussion on prison reform before the chapter officers of the United States Legion of the United States.

He made a strong plea for selection of prison officials just as are preachers, teachers, and social workers, to expedite prison reform. He even went so far as to suggest that they were the same for a prison official or a deacon.

Mr. Bates denied that "coddling prisoners" increases crime, favoring the State prison as a school for criminals and an intelligent system of wages.

THE AMERICAN has the largest home delivery and the largest circulation of any evening paper in New England.

ANDOVER GANG GAIN ENTRANCE AS DOMESTICS, THEN STEAL COSTLY GEMS

Lawrence, Dec. 6.—The arrest in Townsend, Va., of Patrick J. Joyce, alias Harold Clark, accused of the theft of \$10,000 in jewelry from Mrs. Abigail Curran, wife of Maurice J. Curran, Andover multimillionaire, has led to the uncovering of what police believe to be an "inside ring" of jewelry and house robbers of which Joyce is believed to be the "master mind."

LOT TO ROB RICH WOMEN REVEALED

Andover woman, whose name is withheld by the police.

Most of the robberies have been kept quiet to facilitate the capture of the thieves. The last reported is the theft of a fur coat valued at several thousand dollars from a wealthy Andover woman, whose name is withheld by the police.

WILL BE EXTRADITED.

Joyce was arrested on the technical charge of improper use of the mails and held for the arrival of State Officer P. Griffin, now on his way South with extradition papers. Curran estate as a hostler, is suspected of having stolen \$10,000 in rings, bracelets, pendants and brooches, all set with diamonds. From two jewel chests in Mrs. Curran's suite in the Curran mansion, the diamonds were arranged for a taxicab to call for his trunk at midnight.

Question: "Where can I buy blades and a strop for the 'AutoStrop' Razor the Boston American sold me?"

Answer: "At your own Hardware, Drug or Department Store—in your own town."

MISS MAULIFFE AND HER STORY IN SKETCHES

PUBLIC HEARING OPENS FOR TWO POLICEMEN

Public hearing of charges which require after a police trial, in dismissal from the force of Patrolmen Philip D. Bullock and James McGoldrick of West Roxbury station, was opened before Police Commissioner Wilson today.

Bullock was charged with soliciting a bribe from Carl Sorenson, chief petty officer, when he held up on a speeding charge. McGoldrick was charged with untruthfulness in reporting his investigation of the case.

Sorenson testified that when Bullock held him up in Cambridge, Jamaica Plain, he told the patrolman his license was on the ship. He told him "that's your hard luck," he testified Bullock said, adding, "What is it worth to me if I let you go?"

He testified Bullock demurred at \$20, but finally accepted his watch and chain as security.

Hearing of McGoldrick's case was to follow that of Bullock's.

Mexico City—The Department of the Interior sent to the Mexican Senate two claims conventions drawn up by the foreign relations committee.

The text was turned over to the Foreign Relations Committee.

Sanford Bates, Commissioner of Correction, does not believe that every man who reached a training camp should be at the head of every civil service list for every day of his life. His sentiments were made known in a discussion on prison reform before the chapter officers of the United States Legion of the United States.

He made a strong plea for selection of prison officials just as are preachers, teachers, and social workers, to expedite prison reform. He even went so far as to suggest that they were the same for a prison official or a deacon.

XMAS FUND BALL PATRONS TO SEE RADIO DEMONSTRATION

COPLEY PLAZA BROADCAST IS CHARITY EVENT FEATURE

A practical demonstration of radio broadcasting will be given in the main ballroom of the Copley-Plaza Hotel a week from tonight at the big Charity Ball in aid of the American Helping Hand Christmas Basket Fund.

The broadcasting will be done in full view of the audience, giving every person who attends an opportunity of witnessing the exact manner in which this great feat is performed.

J. F. ANNOUNCER

The broadcasting demonstration will be under the personal supervision of Major John J. Fanning, popular broadcasting director of Shepard Stores (WSAC), who ignites "J. F." The thousands of radio enthusiasts who have heard "J. F." voice when they listened to the wonderful programs of WSAC, will undoubtedly grasp this opportunity of seeing him take charge of a program in public.

Next Thursday's demonstration at the Copley-Plaza will be given through the courtesy of John Shepard, third, one of New England's leading radio devotees. It is expected that Mr. Shepard will be present during the demonstration.

TICKETS GOING FAST

This Charity Ball is under the auspices of Madame Lyman School for Stage Children, Back Bay, Mary V. Corbett, School of Dancing, Somerville, Gertrude Dolan-DeVeto, Studio of Dancing, Roxbury, and Helen M. Roche, South Boston. Hundreds of tickets for the ball have been sold by relatives of the many talented children of these four teachers, who are to appear in the entertainment.

As next week's ball will be a charity affair, dress will be informal. It will not be necessary for anyone to wear evening dress in order to attend. The desire of the Basket Fund director is to have every seat of this spacious ballroom filled when the entertainment program begins that night.

TREAT TONIGHT

A big treat is in store for radio fans who "listen in" on tonight's Basket Fund program from Shepard Stores. This program includes everything from jazz to classical music, and will be under the personal direction of Miss Helen M. Roche of South Boston.

By special request Jack O'Brien of South Boston, will sing his latest song entitled "Help a Needy Kid in Your Own Home Town," which he recently composed and dedicated to the American's Basket Fund. It will be the first time the song has been sung in public.

RUTH A. ANDERSON

Malden dancing teacher, who is conducting a children's entertainment in Malden Auditorium, Saturday morning, Dec. 15, in aid of the Basket Fund.

will be a mock wedding with June Wymer as bride, Helen Sullivan, Gorgyman, Maria Solari, ringbearer, and Dorothy McPhee, groom. The ushers will be Catherine Mortensen, Margaret Hayes, Tillie Claflin, Jeannette Joyce, Ida Chaffin, Alice Pumphrey, Dora Salmons and Alice McDonald.

LAID AMERICAN

In sending a contribution of \$5 to the fund, President Robert Lee of the Hayes Square Outing Club wrote: "Our organization is very pleased to enclose our 'mike' in behalf of your annual worthy cause to make the little children happy. The Boston American should be congratulated by every one on the good work they have undertaken." Persons who attended the fine South Boston show of Rhode Island and Kennel Club held in Providence, Rhode Island contributed \$12.50 to the Basket Fund. The donations were made to Mrs. William P. Kinney of No. 608 Seventh street, South Boston, who has been a Basket Fund booster for many years. Mrs. Kinney's famous "Y. D. Hillman" was a blue ribbon in a big class at this show.

ROXBURY DANCE

The net proceeds of a dance in Interdenominational Hall, Roxbury, will be turned into the treasury of the fund. An automobile for necessary work connected with the fund was contributed by the Paige Motor Car Company. An all-patient has been contributed to the fund by Miss J. Mante Goff, a popular Back Bay artist. This painting will be given as a prize at a whole party to be conducted by the mothers of the pupils attending the Madame Lyman School for Stage Children, tonight in the School Studio at No. 237 Massachusetts ave.

BASKET FUND ENTERTAINERS

At top, principals in mock wedding to be held in East Boston High School Hall, Dec. 5, in aid of the fund. Left to right, bride, June Wymer; clergyman, Helen Sullivan; ring bearer, Maria Solari; bridegroom, Dorothy McPhee. (Photo by Pease Studios). At lower left, Maj. John J. Fanning, director of broadcasting, Shepard Stores, Boston, who will give a demonstration of broadcasting for the benefit of patrons of the Basket Fund Charity Ball in the Copley-Plaza ballroom, Dec. 12. (Photo by J. E. Purdy). At lower right, Stella Ulrich, who is to dance at the Charity Ball at the Copley-Plaza. (Photo by Chambers).

has been sung in public. Radio fans who desire a copy of it, may secure same by sending twelve cents in stamps to the Christmas Fund director. Hundreds are planning to attend the entertainment in East Boston High School Hall tomorrow night, directed by Miss Kathryn Sloan. The numerous talented pupils of her two dancing studios will furnish the entertainment. One of the features

PILOT OF MAIL PLANE BADLY BURNED

Toledo, O., Dec. 5.—Charles Brown, Chicago pilot, was seriously burned when his mail plane burst into flames as he was making a forced landing at Castalia, Ohio, near Sandusky, this morning. He was piloting government plane No. 318 and was on the way from Cleveland to Chicago.

TOLD WILLET FIRM WAS IN BAD SHAPE

Shelton L. Whipple, counsel for Willett, Sears & Co., in its \$15,000,000 suit against Kidder, Peabody & Co., P. S. Mooney & Co., and other financial interests in Boston and New York, today at the trial in Dedham put in evidence intended to show that S. H. Foxessenden, one of the command-take over the affairs of the Willett companies in July, 1915, told Willett that the companies were in bad shape in March, 1915, when Willett was induced to part with his hold on the companies, and told the Girard National Bank of Philadelphia an entirely different story six weeks earlier.

Attorney Whipple introduced a letter purporting to have been sent by Foxessenden to the Girard Bank, in which it appeared that the \$3,000,000 loan which Willett had made such sacrifice of his property to procure, had been raised after Foxessenden, Robert H. Herrick and Robert Winsor took hold of his affairs. This was the first time it has appeared that this loan was raised. The letter was dated February 18, 1915, and showed that the loan had been reduced to \$250,000 in seven months, partly by the conversion of slow assets and partly from profits. The letter was an invitation to the Philadelphia bank to participate in a new loan of \$2,500,000, and stated that all of the Boston and New York banks were coming in. Foxessenden was offered to show that the Girard bank came in for \$250,000 of the new loan and renewed old notes for \$250,000. George P. Willett, who was on the stand, said that Foxessenden had given him an entirely different account of the condition of the companies several weeks before this letter was written, and that he had signed away his hold on the companies under the impression that they were in bad shape.

ASKS MILLIONS FOR NEW U. S. EMBASSIES

Washington, Dec. 5.—The State department would be allotted funds for the acquisition of embassies and legations costing not more than \$200,000 each in Buenos Aires, Paris, Berlin, Rome, Tokio and Madrid under a bill introduced today by Representative Rogers, Republican, Massachusetts. Authority to acquire similar buildings in Vienna, Brussels and Lima and to provide quarters for American consuls at Hankow, Tientsin and Canton, China, costing not more than \$50,000 each would be provided.

WOMAN JOY RIDER IN COURT AFTER EVADING TAXI FARE

"Taking the air" without her fare, caused Miss Helen Driscoll, who gave several addresses, one in Dorchester and another in Cambridge, to be brought before Judge Bennett today, charged with drunkenness and with evading taxi fare. The case was continued until Saturday.

Patrolman John Dowling, of the

La. Grange Street Station, made the arrest. He said Miss Driscoll summoned a taxi to the house No. 25 Dwight street, and ordered the driver to motor through the Free.

On returning she found she had no money to pay for the taxi, and her landlady wouldn't let her enter the house. Patrolman Dowling then arrested her.

"PERFECT MAN" IS FROM LYNN, WINNER AT BROOKLYN SHOW

The "perfect man" has been found. He is Morris Shuman, and he lives in Lynn. Shuman is thirty-five years old, and is a clothing cutter. He is a member of the Boston Young Men's Christian Union and has carried off prizes in athletics in that organization.

He is an adept in all sports, but his hobby is wrestling. He has won

prize in the 125-pound wrestling class. At a health show held at Far Rockaway, N. Y., Morris was awarded the title of "perfect man," carrying with it a gold medal and \$150 in cash.

Shuman is five feet seven inches tall and weighs 140 pounds. He attributes his wonderful physique to his daily "gym" work and urges all young men to exercise daily.

FATHER SEEKS MISSING MELROSE HIGH STUDENT

J. Thomas Pierce, traffic manager of the U. S. Rubber Co. at Beverly, has appeared in the police to search for his son, Sanford Thomas Pierce, seventeen-year-old junior at the Melrose High School, who is mysteriously missing. The boy's mother is in a state of physical collapse over his absence. He disappeared on the morning of November 26 after he started for school, his books under

his arm, from his home at No. 61 West Wyoming avenue, Melrose. The parents can think of no reason for the boy's disappearance. When he vanished he had only \$8. He is described, as six feet tall, weighing 165 pounds, and having blue eyes and a fair complexion. He wore an Oxford gray ulster, light gray tweed suit, buff colored cap, tan shoes and gray stockings.

DROP INDICTMENTS IN THEATRE TRAGEDY

New ORLEANS, Dec. 4 (U.S.A.)—Indictments against four men charged with manslaughter in connection with the collapse of the American Theatre in Brooklyn in Nov. 1921

were dismissed by County Judge McLaughlin in Brooklyn today. Seven men were killed in the collapse of the building.

The indictments were dismissed, Judge McLaughlin stated, because of irregularities in the presentation of the case before the Grand Jury.

Entire Talbot store participates—extraordinary values in every department—huge Talbot manufacturing plant is co-operating

A great New England merchandising anniversary celebrated in a good old New England way, with genuine values to bring back old friends and to make new friends by the thousands. Dependable merchandise—of the quality on which Talbot's great success has been built. Read these items—come join in the celebration

1844—1923

Old Home Week Facts

The HOUSE OF TALBOT was founded in 1844 by Samuel D. Talbot. The name and principles of the founder are preserved by descendants active in the business to the present day.

First founded at 13 Kilby Street, where Boston had a population of 14,500, before the Boston & Maine, Fitchburg and Old Colony railroads were in operation.

Intimately associated with the great development of Boston, the HOUSE OF TALBOT has grown in capacity to serve with each year.

1844—1923

Notes of This Sale

This great sale has drawn from two enormous stocks—TALBOT wholesale and retail—to give values unequalled.

Prices so low it will be necessary to make a small charge for alterations on clothing.

NOTE: To accommodate those pressed for time,

NAME LONG MOTORS CO. IN BANKRUPTCY

A petition in bankruptcy against the R. H. Long Motors Company of Framingham was filed in United States Court in Boston today. Four creditors were named, three banks and an advertising agency. They were: Federal National Bank of Boston, \$27,500; Bay State National Bank of Lawrence, \$12,000; Manufacturers National Bank of Lewiston, Me., \$12,000; Chambers & Waverly, \$2,900. The R. H. Long Company of Framingham and Boston was petitioned to bankruptcy a few days ago by three petitioners whose claims aggregated only \$343. The total liabilities of this company are nearly \$2,000,000.

STOLE FURS THROUGH 6-INCH WINDOW HOLE

Providence, Dec. 6.—Two Russian noble skins worth \$500 each were drawn through a slat-hole, found broken in a window of the store of William J. Harris on Westminster street today, making the third in 24 days. Superintendent of Police O'Sullivan said the hole in the window was made by forcing a thin rod through the hole in the window.

FOREIGN MARINES SEIZE CUSTOM HOUSE IN CANTON

Hong Kong, Dec. 6.—Parties of marines from the foreign gunboats anchored off Canton are reported to have taken possession of the custom houses there. The troops are said to be equipped with machine guns. Six foreign gunboats are known to be anchored off Canton. They include the two American vessels, the Asheville and the Pampanum, the British ships Ocala and Moorhen, and the French gunboats Malindi and Crocodile.

G. O. P. TO TELL M'CRAY TO QUIT AS GOVERNOR
Indianapolis, Dec. 6.—Governor McCray's retirement from office will be sought as a result of his involved financial affairs, Clyde A. Wray, Republican state chairman, declared today after a conference with party leaders.

COOLIDGE FOR TAX CUT; NO BONUS

Continued from First Page.

plan on which many nations have agreed, though it may not meet every desire, I therefore commend it to the favorable consideration of the Senate, with the proper reservations clearly indicating our refusal to adhere to the League of Nations."

The President prefaced his message with a tribute to President Harding, declaring "the world knew his kindness, his greatness and his character," and that "he has made justice more certain and peace more secure."

THIS RECOMMENDATION.

The President's recommendations follow:
Government operation of the war-built merchant marine until shipping conditions are such as to allow it to be disposed of advantageously.

Strengthening of the Coast Guard to combat rum smuggling; rigid regulation of the major sources of liquor production; suppression of interstate traffic in liquor and prohibition of respect for law.

Continuation of the policy of restrictive immigration, with immigrants to be selected abroad, and immediate registration of all aliens.

Strengthening rather than weakening of the army and navy, with additional airplanes for the army; new submarines for the navy; and increased defenses for the Panama Canal.

FOR CHEAPER COAL.

Action under private ownership of coal mines that will obtain greater continuity of production and greater public protection against "unbearably high" prices along the lines of the recommendations laid down by the Federal Coal Commission.

Relief for the farmer through lower taxes and freight rates; cheaper fertilizers; greater organization which would permit reduction of the wheat acreage; diversification of farming; encouragement in the formation of cooperative marketing organizations; continuation of government loans, and assistance in exportation through the War Finance Corporation.

Sale of Muscle Shoals together with a location for an auxiliary steam plant and rights of way for power line so that the agriculture of the nation may get greater supply and lower cost of fertilizer, with the sale price of the properties not a major consideration.

CONDEMNES LYNCHING

Anti-lynching legislation; additional appropriations for vocational training in agriculture for negroes; and creation of a commission of

Citizens Must Aid Dry Laws, Says Coolidge

The prohibition amendment to the constitution requires the Congress and the President to provide adequate laws to prevent its violation. It is my duty to enforce such laws. Free government has no greater menace than disrespect for authority and continual violation of law. It is the duty of a citizen not only to observe the law, but to let it be known that he is opposed to its violation. I recommend that the field force for prohibition enforcement be brought within the classified civil service without covering in the present membership.

—From President Coolidge's address to Congress.

white and negroes "to formulate a better policy for mutual understanding and confidence."

Extension of the Civil Service to the prohibition enforcement field force exclusive of the members of the revenue force and placing in the classified civil service of postmasters of the first, second and third classes.

Opening of intra-coastal railways; control of the flood waters of the Mississippi and Colorado Rivers; construction of the Great Lakes-St. Lawrence waterway and power project; and promotion of the super power development of the North-eastern states.

Creation of a commission of judges and lawyers to simplify federal court procedure.

Limitation on child labor through constitutional amendment.

Regulation of radio interference and aviation.

TO AID RECLAMATION

Promotion of highway construction and reforestation.

Relief of occupants of reclamation projects by empowering the Secretary of the Interior to suspend, readjust and reassess all charges against water users.

Prohibition of the issuance of tax-exempt securities by constitutional amendment.

Mr. Coolidge discussed foreign debt, declaring himself against cancellation and for a reasonable adjustment in accordance with the principle adopted for the British debt, and announced he would oppose recognition of Russia so long as the ruling regime refused to recognize the right of private property ownership and the debt contracted by Russia after the overthrow of the Czar.

Full Text of Coolidge's Message on Pages 10 and 11.

BRILLIANT CROWD HEARS MESSAGE

Washington, Dec. 6 (U.S.S.)—President Coolidge delivered his first message to Congress today before 300 of the largest and most brilliant assembly that ever heard an American executive communication.

Afterwards were closed two hours before the President appeared, the lucky onlookers having arrived early.

Diagnoses and executive boxes were likewise jammed early. In the President's box were Mrs. Coolidge and father of the Cabinet, Mrs. Coolidge looked charming in a long green coat trimmed with dark brown fur. She wore a hat of deep orange.

Others in the box were Colonel George Harvey and R. B. Cresser of Texas, who probably will be the next Ambassador to Mexico.

Across the chamber was Mrs. Alice Roosevelt Longworth, wearing an orange dress of unusual design.

There was scattered hand-clapping when the Cabinet members filed slowly in and took seats near the podium.

Representative Clark, Democrat, of Florida, criticized the proceedings by protesting there were a lot of people on the floor who had no business there, with "several of members holding tickets are helpless in the crush outside."

He moved that the floor be cleared of all persons not entitled to seats. Ayes and noes were called for and the ayes won.

sergent-at-arms

began an almost hopeless task of trying to obey the mandate. The "outdoors," mostly clerks and secretaries to members, by long custom, have occupied the outer space in the chamber.

There was a roar of applause when the President entered with the Committee of Exort, Senator Lodge leading.

The applause expended into cheers from the Republican side as he shook hands with Speaker Gillet and President Cumins of the Senate and bowed to his audience.

The chief executive spoke slowly, without effort at oratory.

The first applause came when he declared the United States was its reason to limit its own freedom and independence of action by joining the League of Nations.

There was scattering applause as he declared for the world peace, but with reservations. A declaration against recognition of the Russian Soviet government brought further manifestations of approval as did the President's announcement that he did not favor substitution of the foreign war debt and his announcement of his "unqualified approval" of the Mellon tax program.

CLEARANCE SALE OF FUR COATS

When Christmas comes to your house

WHEN Christmas comes to your house, happy will be the people who are there to greet it. Holly and mistletoe, ribbons red and ribbons green, the smell of pine and crimson roses will be all about.

And packages will be piled everywhere—little boxes, big parcels that are squishy to the touch, small ones that are heavy, round ones in red paper, foreign ones in stout butchers' paper tied with rope.

No wonder that everyone is happy and elated. The children are dashing about like riotous puppies. Delia flies by with her cap askew. From the dark corners come hissing whispers and the rustle of tissue paper. Christmas is here.

Many of the gifts that bring happiness and contentment will come from our shop. For we have served Santa Claus for one hundred and twenty years, and we have learned in those years the things which people like.

We shall be glad to have you bring your Christmas list to us. If there are some people on this list for whom you find it hard to choose, perhaps we can help you. At least give us the privilege and pleasure of trying.

COLLIDGE RECALIBRATE CONGRESS FIRST DRAFT OF HIS TO CUT TAXES

Continued from Page 10.

Never given adequate attention to the prison problem. It ought to be provided employment in such form of production as can be used by the government, though not sold in the public in competition with private business, for all persons who can be placed at work, and which they will accept, on a reasonable compensation, available for their dependents.

Two independent information are needed: one for the segregation of women, and another for the segregation of young men serving their first sentence.

The administration of justice would be facilitated greatly by including in the Bureau of Investigation of the Department of Justice a Division of Criminal Identification, where there would be collected all the information which is now indispensable in the suppression of crime.

TO ENFORCE DRY LAW

The prohibition amendment to the Constitution requires the Congress and the President to provide adequate laws to prevent violation. It is in my duty to enforce such laws.

For that purpose a treaty is being negotiated with Great Britain with respect to the limit of waters of the river.

To prevent smuggling, the Coast Guard should be greatly strengthened and a supply of swift power boats should be provided.

The major sources of production should be strictly regulated, and every effort should be made to suppress interstate traffic.

With this action on the part of the national government, and the cooperation which is usually rendered by the numerous state governments, prohibition should be made effective. Free government has no greater enemy than the disregard for authority and continual violation of law.

It is the duty of a citizen not only to observe the law but to let his neighbor know that he is up to the law.

CONDEMNES LYNCHINGS

Numbered among our population are some 12,000,000 colored people. Under our Constitution their rights are just as sacred as those of any other citizen. It is both a public and a private duty to protect these rights.

The Congress ought to provide all the powers of prevention and punishment against the hideous crime of lynching, of which the colored people are the victims.

WOULD HELP RADIO

Cooperation with other nations is necessary for complete protection of our coast waters from foreign submarines. Plans that will allow certain radio experts to return to the United States will make such immigration of a selective nature with some restriction at the border and will be a great service to the country.

It is the duty of the government to provide for the return of these experts.

It is the duty of the government to provide for the return of these experts.

ARMY AND NAVY

For several years we have been discussing the personnel of the army and navy, and reducing their power to the danger point. Further reductions should be made.

The army is a guarantee of the security of our citizens at home; the navy is a guarantee of the security of our citizens abroad. Both of these services should be strengthened rather than weakened.

Additional plans are needed for the army and additional subsidies for the navy.

The defense of Panama must be perfected.

We want more competitive armaments. We want more competitive armaments.

Let us not be without the war spirit. Let us not be without the war spirit.

Let us not be without the war spirit. Let us not be without the war spirit.

EDUCATION, WELFARE

Our national government is not doing as much as it legitimately can do to promote the welfare of the people. Our enormous material wealth, our institutions, our scientific knowledge, our resources, are being wasted. They are being wasted.

Our national government is not doing as much as it legitimately can do to promote the welfare of the people. Our enormous material wealth, our institutions, our scientific knowledge, our resources, are being wasted. They are being wasted.

Our national government is not doing as much as it legitimately can do to promote the welfare of the people. Our enormous material wealth, our institutions, our scientific knowledge, our resources, are being wasted. They are being wasted.

FOR CHEAPER COAL

The cost of coal has become unbearably high. It places a great burden on our industrial life. It is the duty of the government to provide for the reduction of the price of coal.

The cost of coal has become unbearably high. It places a great burden on our industrial life. It is the duty of the government to provide for the reduction of the price of coal.

Mothers know a dose of DR. CALDWELL'S SYRUP PEPIN Will keep them fit

trouble: salts, which concentrate the blood and dry up the salivary. They consider Dr. Caldwell's Syrup Pepsin for all ailments as they know it is a simple vegetable compound of Egyptian pepsin with persin and aromatic. The formula is on the package.

Give Laxative for Colds

Adults should have at least one movement of the bowels every 24 hours, and children two or three. Failure to have this means constipation, then headache, dizziness, nervousness, loss of appetite. Give Dr. Caldwell's Syrup Pepsin at once with Syrup Pepsin. Pepsin at bedtime, and there will be health and good feeding by morning. A dose costs less than a cent, and a bottle can be had from any drug store. Colds and constipation come together, so if you notice coughing or sneezing stop it at once with Syrup Pepsin.

'First Aid' For Sick Children

THE experienced mother is not alarmed when her child becomes sick. She knows that most of the ailments of childhood are trifling. If it seems serious she calls a doctor, but whether or not she calls she gives first of all, a good laxative medicine. The doctor would advise that way. It is his "first aid." Such experienced mothers as Mrs. Everett E. Hunt of Belmont, Mass., who has three children and never any sickness, and Mrs. F. B. Kuk of Lowell, Mass., who has five children, all give Dr. Caldwell's Syrup Pepsin at the first sign of sickness. Such timely doses have saved them much worry.

The Meaning of "Good"

All doctors agree that a thorough cleansing of the bowels is of first importance for it removes dangerous intestinal poisons. They all also advise a good laxative, and by "good" they mean Dr. Caldwell's Syrup Pepsin. It is so effective and yet harmless. They know that the bowels are the source of many ailments, and that a healthy bowel is a healthy body. They know that a healthy bowel is a healthy body. They know that a healthy bowel is a healthy body.

GIVE "CALIFORNIA FIG SYRUP"

Dependable Laxative for Sick Baby or Child—Harmless!

Hurry Mother. Even a fretful, peevish child loves the pleasant taste of "California Fig Syrup," and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow.

Ask your druggist for genuine "California Fig Syrup" which has directions on the bottle, or all ages printed on bottle. A teaspoonful today may prevent a sick child tomorrow.

WYETH'S SAGE AND SULPHUR

Darken Gray Hair

Wyeth's Sage and Sulphur is Grandmother's Recipe to Darken Gray Hair

That beautiful, even shade of dark, glossy hair may only be had by brewing a mixture of Sage Tea and Sulphur. Your hair, your youth, your charm. It makes or mends the hair. It fades, turns gray or streaks. It is applied, or two or three times a day. Sage and Sulphur enhance its color.

Don't bother to prepare the mixture. You can get this famous old recipe improved by adding other ingredients at a small cost, and still get the same result. Wyeth's Sage and Sulphur enhances its color. It can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's Sage and Sulphur" Compound. It is so simple and so effective. It is so simple and so effective. It is so simple and so effective.

The CONTINENTAL 50th Anniversary Sale

Marking 50 years of good clothes service to the men of New England

A Bit of History
1873-1923

In the Sixties of the past century Silas W. Loomis, junior member of Freeland, Baird & Loomis, manufacturers of clothing at Winthrop Square, visioned a retail store featuring the concern's clothing, and selling at a margin of profit that would give the greatest values in New England in men's clothing.

Securing a store on the southern side of Washington Street at Beach it was fitted up and its opening to the public advertised for Nov. 10, 1872. When the store was ready to receive its stock of clothing an epidemic was raging among the horses of Boston and vicinity, and Mr. Loomis scoured the surrounding country, for ox teams with which to move the goods from the warehouse for the opening. On Nov. 9, 1872, a \$50,000 stock of clothing—large for those days, but small in comparison with The Continental's million-dollar stock of today—was transported by ox-carts from Winthrop Square.

That night came the great Boston fire, sweeping through Winthrop Square and the adjacent business district, but the clothing was safe in the new store, which opened its doors the following morning.

Another bit of Continental history tomorrow

Don't you think I ought to

New York, Dec. 8. A romance in a movie studio began last August, led to the marriage in Greenwich, Conn., of Ann Luther, a beautiful young screen star, and Ed Gallagher,

It occurred in the sumptuous sun parlor of the Pickwick Arms, and was followed by a wedding break fast attended by—of course—Al Shean, and by Mrs. Shean, who played bridemaid to her husband's

team; Mrs. Hazel Dottenheim, wife of Keppler's partner, and Mrs. Minnie Marks, known to the stage as Minnie Palmer, Shean's sister.

Miss Luther, who is twenty-nine, met Gallagher at the Fox Studios.

Doolan stated that Dominick will be charged with numerous other hijacking operations. It was at his instance that the arrest was made.

Dominick was appointed a con-

Copeland, now United States Senator, visited Gallagher at his home in Beechhurst, L. I., and told him he needed a nurse, and further suggested that he knew a girl named Ann Luther who would be the nurse

HIDING

ed plumage they fluttered away through the misty rain falling over the New Jersey marshes, ostensibly on the trail to sunny southern California.

They left the home of Joseph McCabe, No. 133 Orchard street, Ridgewood Park, in the shiny new limousine bought by the bride, as one well-told detective said, to win back

They returned to the car, got in and drove away to California. Three hours later the limousine was back in the McCabe garage.

Not at all disturbed at the flight of the love birds, Assistant Prosecutor

He said that he was now investigating the possibility that neither Mrs. Simpson, nor Burton Tucker, nor their witness, John McGuinness had been in the State of New Jersey

Mr. Tucker refused to affirm or deny the following questions:

Did he pack his bag and run away after the first ten days of married bliss?

While Mrs. Tucker was busy refusing to answer these questions

John McGuinness, Burton's school-
boy friend and Mrs. McCabe, chimed
in with frequent advice. Mrs. Tucker,
however, knew her own mind. She
snapped back:

"Leave me be."

SMOKING BY MODERN WOMEN IS 'HEALTHY REACTION TO NEW LIFE'

FOUND TO BE NATURAL RESEATING

Favors Use of Wood Exhaustive Study of Habit

By GRACE DECHAMPS.

The flapper who smokes is just "showing a healthy reaction to life."

Reformer and tobacco critic have been saying for years that the cigarette is a poison. But the authority of one of the greatest modern physicians, Dr. J. H. T. Baldwin, has been called in to settle the matter. In the opinion of this expert, the modern woman who smokes is just "showing a healthy reaction to life."

Dr. Baldwin, who is one of the most distinguished of modern physicians, has just published a book on the subject of smoking. In it he says that the modern woman who smokes is just "showing a healthy reaction to life."

Busy Week for the Boston Debutantes, Betty Alden Reports

By BETTY ALDEN.

MISS DEBUTANTE needs a very generous supply of dancing slippers these days, for this year most presentations are topographical affairs. Even at the teas and receptions where the buds blossom forth, dancing seems an indispensable feature.

This week—an especially busy one for the deb and their cavaliers—opened with the ball given at the Somerset by the George R. Baldwin for their daughter, Miss Nell T. Baldwin. Tomorrow came the affair in honor of Miss Jackson and Miss Moore, last night Miss Isabel Thurlow was given a dance at the Chilton Club, and tonight Miss Helen Paley and Alice Sherburne are having a dance in their honor at the Chilton Club. Tomorrow the younger contingent will flock to the Somerset, where the William Deaneys are presenting their daughter, Miss Margaret Dansey, at a ball.

POPULAR Miss Rosemond Adie—moves family known as "Red" to her friends—back at the Chestnut Hill home after a several months' stay abroad.

"Red" Adie, younger daughter of the Andrew Adie, is one of society's most skillful equestriennes and has ridden from the ring with many a blue ribboned thoroughbred. She has done some splendid work in the devastated areas of France, and it was this work, I believe, which took her to Europe again last summer.

She was among the guests at the dance which Mr. and Mrs. George Baldwin gave the other night for their daughter, Miss Nell Baldwin. Her rather unassuming, tired look of green and gold was most beautiful. She has light brown and merry gray-blue eyes.

A PHOENIX of the Baldwin dance, Miss Baldwin, who wore blue and silver for the occasion, arrived in the evening line with a massive banking of the blossoms sent to her forming a colorful background.

Among Miss Baldwin's followers who helped to make the dance a success from the floor that evening was brown-haired Alice Herrick, one of the dearest of the season. Her black-and-white dress in the light bedazzle style was of the R with touches of blue and a little of white lace.

Tall and dappered in a blue dress, another of the season's buds, was an old friend, Miss Charles F. Potter, who was in the line of the dance. She was in the line of the dance. She was in the line of the dance.

MRS. WILLIAM H. COOLIDGE, JR., Miss Coolidge (former Coolidge) and her family, who were in the line of the dance. She was in the line of the dance. She was in the line of the dance.

RIVAL PASTORS TO DEBATE IN CHURCH ROW

New York, Dec. 6.—Leading proponents of religious "moderation" and "fundamentalism" will meet at the house of Miss Potter, in the Riverside Park, where the Rev. Charles F. Potter, pastor of the West Side Unitarian Church, meets Dr. John R. Sturges, pastor of the Cavalry Baptist Church in public place.

The Boston accepted the challenge of the Rev. Potter, who said the Baptist clergymen had long had a question answered which he wished to see answered in the modern era.

According to speakers at the Baptist Fundamentalists' meeting had misrepresented facts in their attacks on the modernists. The Rev. Potter proposed the following subjects for debate:

1.—That the Bible is the infallible word of God.

2.—That an evolutionist can be a Christian.

3.—That the miraculous virgin birth of Jesus is an essential Christian doctrine.

Also, to uphold the attack on the debate on the first subject, the Rev. Potter will return in today's paper to this church and preach the value of "moral peace and rich on peace."

2.—That Jesus Christ is true doctrine.

'WOMEN'S WAR' IF THE LIBERAL PARTY WINS

London, Dec. 6 (AP).—If the Liberal party is elected today, a general election, it may lead to a "women's war," it was claimed by a leading Liberal.

The cause will be the relations of the female members of the family of the two former Premiers, Lord Balfour and Herbert Asquith.

When Asquith was Premier, Lord Balfour was a member of the Liberal party. Lord Balfour was a member of the Liberal party.

Lord Balfour was a member of the Liberal party. Lord Balfour was a member of the Liberal party.

JUDGE GRABS GUN; TRIES TO SHOOT LAWYER

Pittsburgh, Dec. 6.—Judge Richard Kennedy leaped from the bench, grasped a loaded revolver in the hand of Mrs. Catherine Thomas, fifty years old, and succeeded in disarming her before she was able to shoot Delmont K. Fere, an attorney in a crowded courtroom of the County Court.

Witnesses and spectators fled from the courtroom when they saw the woman draw the weapon from the folds of her dress. Fere, who was standing beside her, leaped over a rail and fled from the room as she pointed the gun at him. After being subdued, the woman was examined by a physician, who stated she was mentally deranged.

When Asquith was Premier, Lord Balfour was a member of the Liberal party. Lord Balfour was a member of the Liberal party.

Philadelphia—The old Betsy Ross Park or the Parkway, if the suggested house hospitals of the American homes of Major Moore are carried out, will be removed to Fairmount park.

Fresh as dew

You will be surprised how much of the flavor of fresh home-grown tomatoes is impressed in

BLUE LABEL KETCHUP and CHILI SAUCE

You can stay out of the Kitchen

longer if you have some of Drake's Cake in the pantry. It is easy to buy at the nearest grocery or delicatessen; it is easy to send one of the children over to buy a package or pound or a few slices—and if you have some in the house you need not be afraid of having unexpected company.

Now—Luscious, Seedless California Oranges

Here are oranges that add to Holiday cheer.

Easy to peel, tender, firm, seedless—ideal to eat whole.

Fine for children's lunch boxes. For oranges supply fresh vitamins. Also organic salts and acids which aid in digesting other foods, especially needed at Holiday time.

Also for quick salads and desserts. Slice them thin—no tearing. Cut them easily with fork.

All dealers—now—fresh from California.

Buy a box for Christmas. Give every one bright-colored, luscious oranges during the holidays—a healthful gift.

The Friendship of Coffee

A cup of coffee! Well may it be called the national beverage. We venture to say no home is without its coffee-pot. The family gathers together under its fragrant influence. The rich, golden treasure it dispenses cheer, stimulates and drives dull care away. It puts a zest into duty, a smile upon the face of care. It braces tired nerves. It is a token of friendliness—a symbol of unity. Two, three, four or more persons drinking a cup of coffee together is a sign to all the world of comradeship; yes, and of faith. Perhaps that is why the cup of coffee is the climax to every feast. And no better coffee than White House Coffee was ever brewed in cottage or palace throughout our land. Be sure the "White House" is on every label. One, three and five-pound packages only.

WHITE HOUSE COFFEE

DWIGHT WRIGHT CO.
NEW YORK, N. Y.

EACH TEAM TARAMASCHI IN BIG BOUT WITH PLATOS TONIGHT

Tonight at the Grand Opera House Angelo Tsampanis, the Italian champion, will fight his hardest to beat (since invading the Eastern States) the American champion, Sam Langford. The fight will be a "double make for the favorite of the fans."

Standing an even six feet and weighing over 110, Photos, who has defeated a lot of good ones, has the four of our best and South American experts to have much trouble beating Tsampanis! He has a host of Greek friends who flatter him some say as does Charlie, by his rough house method, but he has a lot of fight left in him and his opponents and in this way help to win himself what might otherwise be a harder fight and victory.

Tsampanis is in wonderful trim for the South American fight.

Scientific hockey should be the rule when Harvard varsity meets Boston Hockey Club in the main attraction of the first all-tomorrow night. That the Hockey Club players, all former Harvard stars with the exception of Jack Hutchinson, know all the inside tricks of the Crimson game is well known to hockey fans.

Whether the inside stuff can prove out over such a fast, fresh and violent team as Harvard will present in a question. Bruin teams lacking speed generally are effective for two periods, but the tough third period is the obstacle that ruins them.

Rickard Tries to Fix Things Up For Mike McHugh

New York Times 6-17-27

Harvard varsity players have a lot of respect for George Owen. Owen ought to be better than ever this season. He has no respiratory or an unbalanced forward line to worry him. He will play his own game. Owen is down and weight and seems able to tear up and down the line as well as ever.

Coach Ralph Winter ends into the Harvard net. Winter will work cut out. Forwards with

HOW TO DRILL YOUR PANEL FOR THE BABY SUPERNEUTRODYNE

EXPLANATION OF DRILLING

Complete Details on Arrangement of Every Hole as Shown in Diagram

This is the second in a new series of articles describing the construction of the improved superneutrodyne, the remarkable circuit presented to its readers by the American and protected by the United States patent laws. The first article dealt with the construction of the Baby Superneutrodyne and showed the wiring diagram of the Baby Superneutrodyne. Other articles will follow showing the variations of the superneutrodyne.

By M. A. BIMMONS, Designer of the Superneutrodyne, Registered U. S. Patent Office, Copyright, 1923, Superneutrodyne, Inc.

Preparations of the panel for an electrical instrument always seems to present insurmountable obstacles to the individual who has just been introduced to a drill. Drill points and center punch by a hardware salesman. Somehow these salesman usually take it for granted that you know as much about drills as the man who invented them. And you walk home with a collection of hardware hoping it'll all work, somehow.

And to add to the confusion you hear about half finished panels and rubbed finish and a more technical junk about the way the costly square inches of black steel should look when finished.

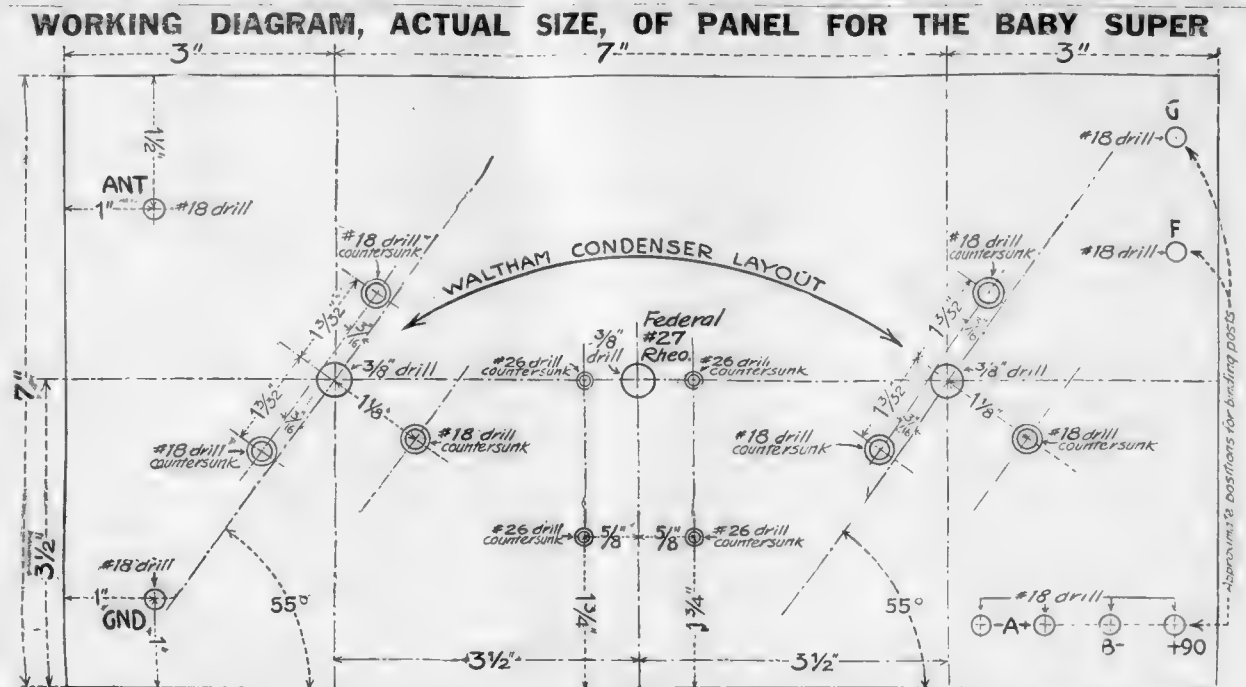

LAYOUT OF PANEL. Today we show you the layout of the Baby Super panel, and please we can help to clear away the mystery which always seems to hold "er" out people. When you buy your panel, which is seven inches high, 13 inches long and 1 1/2 inches wide, you will find a center punch and a set of drill bits. This will save much useless work with the edges and smoothing out saw marks. Then with a sandpaper and a square hunk of a bit or cork whorl or sandpaper about "four" grain—try to take off the shiny gloss on the side of the panel to be used as the face of the panel. It is laid flat on a workbench or kitchen table, held in place by a strip of tape, and the table around the edges of the panel and with the hands below the face of the panel, this is easy.

THIS ONE WAY. Rub the sandpaper one way from one end to the other. Bear down hard. This action will take off the fine line, running parallel across the material. The secret of the grinding is the use of the sand paper. Don't wait for the cutting edges to glass over, but change the paper frequently.

Don't get occasionally, to see where "shiny" spots are, and then grain out there. Then wipe all dirt off with a drop of oil. It is better to use a drop of oil than a drop of kerosene. The secret of the grinding is the use of the sand paper. Don't wait for the cutting edges to glass over, but change the paper frequently.

Then with a sharp knife draw the right angled cross lines at the center of the holes indicated, so that these knife lines cross at the center.

WORD OF CAUTION. Here is a word of caution. The panel is not to be used as a base for any other instrument. It is to be used as a base for the Baby Superneutrodyne. The panel is not to be used as a base for any other instrument. It is to be used as a base for the Baby Superneutrodyne.

HERE IS THE BABY SUPER PANEL LAYOUT. Cut this drawing out, place it on the panel and indicate the centers of holes to be drilled with a scriber or knife right through the paper. It is the exact size of the panel, and the centers of holes are exactly where they should be on the panel. Cut it out and save it. Wiring instructions are based on this drawing.

CROWDS FORCE FANS URGED TO RADIO SHOW TO LATE HOURS

The experts who write knowledge of radio frequency must have in mind the capacity crowds that are attending the radio show at the Waltham Hotel in Jamaica Plain. The show is being extended from 10 to 10:30 p.m.

INTERESTS ALL

There is plenty of the show to interest the uninitiated as well as the dyed-in-the-wool fan. Those who think the exhibition panel is located in Lever's Lane need have no fear of the highly technical terms used by the experts.

When you have marked all the hole centers with a steel punch, scribble circles about these center punch marks with a steel pencil. This will save the trouble of the finished hole. The circles are a little larger than the hole.

LAID OUT SETS

The sets are laid out in a row on the table. The sets are laid out in a row on the table. The sets are laid out in a row on the table. The sets are laid out in a row on the table.

TRIPLE OVERVIEW

The triple overview is a view of the panel from above. It shows the positions of the holes and the dimensions of the panel. It is a useful reference for the reader.

QUERIES AND ANSWERS

Radio Editor: Do you have blueprints for sale of the Superneutrodyne? THOMAS H. HAYNES, Providence, R. I.

No. But we hope soon to print diagrams, actual size, which will be better than blueprints. Watch for them.

Radio Editor: Started to build the American's Superneutrodyne and a friend told me I cannot use a W12 tube with it. Kindly advise me whether there is any possible way to change the circuit so that I may use the W12 tube as my first or very good and I don't want to go to the expense of buying new 201A tubes and batteries.

W12 tube may be used in the circuit without change in the wiring.

Radio Editor: Would a vented 201A condenser be satisfactory in the Super? Will a W12 tube be good as an amplifier? What is the best of Super 4 tube set without tubes, parts, batteries?

Reverend. The condenser you name is of top grade capacity, and a venner is not recommended. From 2000 to 5000 is the limit. W12 works as an amplifier, but with less efficiency than the 201A. Costs depend on the parts you buy and could best be secured from your dealer.

Radio Editor: If I build a Superneutrodyne in the new series, started today in two days and pulled in 15 minutes, which the whole subject will be in about 10 days. Believe me it is explained in detail so that no mis seemed good to work a set without tubes need be made.

Medbury Says—

By John P. Medbury

WE'VE had our income tax jobbers, golf privatorists and now we've got radio larc. A radio larc is a man who'll tell you he knows he got Cuba last night because he could smell the liquor over there.

HE doesn't realize that it's a wonderful feat to be able to sniff with his ears.

HE may have smelted Major all right, but it was probably the breath of the guy who was leaning over his shoulder.

AS far as the prohibition office knows, the bootleggers haven't got any broadcasting stations.

THEY haven't any use for ether except for putting it into their beer.

IT wouldn't be very appropriate to follow up a children's head time story with a wine list.

A MAN who owns a radio outfit still tell you anything. It has no more regard for the truth than your wife's lawyer.

A NEW YORK radio bug will swear that he heard from San Francisco, but he doesn't tell you it was by letter.

IF you start to argue with him he'll show you the monthly radio program in a Feltin newspaper.

HE'LL tell you he heard Ford, Ford, Oregon, when in reality he couldn't hear his mother-in-law in the next room.

ANYBODY knows that a mother-in-law is the most powerful broadcasting station we've got.

AN expert mother-in-law has it all over a radio set. She gives out news before it even happens.

SHES what the manufacturers term a "Lead speaker."

SO whenever a New York radio bug tells you he got San Francisco with the difference with him and before him as far as Omaha.

HAVE A GRILING COUNTER NANCE IN OLD AGE.

Are you growing old cheerfully and graciously?

You think that is impossible with a crick in your back and a mare of false teeth.

If you have a sense of humor, it might help you out.

Remember how you used to look at some persons and grow out of shape with rheumatism brought on by overwork and exposure?

You did not understand what made them look that way and you thought it was because they just let themselves sloth and grow deader.

And now you do have, but everyone has them, and when you find an elderly person who keeps cheerful and happy in spite of a wrinkled face you have found a person whom everyone loves and reveres, for a smiling countenance in old age means a happy and easy-free heart.

EMBARRASSING MOMENTS
